I have also included a spelling test and pretest template you can use each week. This packet presents itself as a natural opportunity to work on neatness and handwriting. There is no doubt that the Saxon programs are wonderfully planned out and very effective. However, I noticed my students were in need of more interaction with the weekly spelling lists. I started making daily practice sheets just so they could get more practice with the words. It was soon obvious that the interaction with the words by using the worksheets was having a positive impact on their spelling and other language skills. I created these as the year went along so they are gauged well with the ability of the children and progress in difficulty as the year continues. What is the purpose of them? Provide the children with more practice with the words. - Improve the familiarity of the words meaning and spelling- Demand independent thinking - Introduce and foster important language skills What type of skills can be found in these sheets? Strongly disagreeStrongly agreeAnything I can use that is aligned with a curriculum I have to use is a WIN for me. Whoever made this resource knew what they were doing! I have wanted to create extra center/independent activities to go along with our Saxon words, but I just feel like I can never find the time. BUT THEN I found this wonderful resource to implement and it has been wonderful! My kids have done much better on spelling tests and memorizing spelling patterns this year thanks to this amazing resource! Strongly disagreeStrongly agreeThis resource was an excellent supplement to Saxon! Strongly disagreeStrongly agreeSo many great resources in this bundle. My students like the worksheets and are engaged while I'm teaching. Strongly disagreeStrongly agreeThis was a wonderful resource to complement our spelling lists. Thank you! Strongly disagreeStrongly agree "Saxon Phonics & Spelling has provided a missing piece of our curricular puzzle on our elementary campuses. We now have a legitimately balanced reading instructional plan across our district that is proving to accelerate the literacy growth of our students."Dr. Laurie Wells, Curriculum and Instruction Coordinator | Jacksonville ISD, TX
