Family care practice

Contact details for Cherryside Medical Practice in Roscommon, Ireland: - Address: Cherryside, Castle Street, Roscommon F42 YY48 Co. Roscommon - Website designed by If Out of Hours Medical Advice is available through the NHS 111 online service or by calling 111. - The GP Annual Survey aims to gather patient feedback on their experience with the practice. - Cookies are used to enhance user experience and understand how users interact with the website, as per government guidelines. Our practice prioritises the wellbeing of our local community, offering management plans for patients with chronic medical conditions. We also provide travel medicine services for individuals and families embarking on business or leisure trips. To promote your health and wellbeing, we send reminders via SMS, email, or direct mail to schedule preventative care appointments. If you require a routine prescription, please allow at least 24 hours' notice to ensure timely processing. Our staff spends around one to two hours daily managing repeat prescriptions, updating our computer database, and reviewing scripts before signing them off with the doctor. Due to our high workload, we cannot issue repeat prescriptions on demand. In case you've run out of your regular medication, your regular pharmacist may be able to supply some until your prescription is re-issued. Completed prescriptions will be left at reception for collection or posted if you provide a stamped envelope. Please note that due to GDPR regulations, we no longer fax prescriptions and they can only be collected by a pre-nominated/authorised person. We advise against leaving it too late to request a routine prescription. Our services are designed to care for individuals and families, with forms and links available on our website.
