Step One: Earn a high school diploma Paraeducators most hold a high school diploma or GED in order to be qualified for paraeducator positions. Step Two: Earn some college credits In most states, 60 credits or an associate degree will likely be required to pursue paraeducator positions. Schools will want students who have committed to their own education and have taken some college courses that will be key in preparing them for success in the classroom. General education classes that expand on important knowledge are extremely important for paraeducators. Having the ability to teach writing, the basics of science, history, and math are all important for those going into the classroom to become paraeducators. Step Three: Pass a district test Most school districts will have tests or assessments that paraeducators must pass in order to be qualified to work in a classroom. These tests measure abilities in math, English, reading, and more. But each school district will have their own assessment guidelines and standards that paraeducators will have to meet. Step Four: Paraeducator certification You'll need to enroll in a paraeducator certification program to move forward in this career path. The American Education Association offers this certification at the district level, or a community college near you may also offer this. A paraeducator certification is the final step to prepare to enter the classroom as a paraeducator. How Can I Advance My Education Career? If you're currently a paraeducator or you're interested in this career, a career as a teacher may be a great way to progress in your chosen field. Paraeducators don't get to run their own classrooms, so for those who are ready for that step, becoming a teacher is a natural progression. In order to become a teacher you'll need to take additional steps. Step One: Earn a bachelor's degree in education At a minimum, paraeducators generally need to complete at least two years of college coursework or an associate degree. But aspiring paraeducators would stand out from the crowd or be prepared for enhancing their teaching career by getting a bachelor's degree in educational studies. Courses in these degree program will teach the basics of teaching theory and provide a solid foundation for a career as a paraeducator. There are many degrees offered within education—students can focus on educational studies, elementary education, or secondary. Those that choose to focus on secondary education must choose an area of specialization like mathematics or science. Another great option for paraeducators is a B.A. in Special Education. This degree thoroughly prepares students for a career as a paraeducator or to move forward as a teacher. It offers modules on behavioral support strategies, collaboration with partners for student success, and ethical practices for special education. A degree like this gives aspiring paraeducators the confidence to have a positive impact on the lives of the students they're working with. Step Two: Gain licenses, certificates, and skills If you want to move your career forward and become a teacher, you'll need to have a license. Each state has unique requirements for teaching licenses, so it's best to research what the requirements are in your area. In general, teachers must have a bachelor's degree, pass a background check, pass the Praxis exam, and have in-classroom experience. Step Three: Begin job hunting and secure a job After completing a bachelor's degree and earning any licenses and certificates that might be necessary, prospective paraeducators are now ready to brush off their résumés and enter the workforce. The time to do so has never been better—recent statistics show that there are over 140,000 openings every year for teaching assistants. Try our free ParaPro Reading practice test. This test consists of 30 multiple choice questions on reading skills and knowledge, as well as the application of reading skills to support classroom instruction. Our online practice questions will help ensure that you are fully prepared for your ParaPro Reading test. You have already completed the quiz before. Hence you can not start it again. You must sign in or sign up to start the quiz. You must first complete the following: Test complete. Results are being recorded. 0 of 30 Questions answered correctly Your time: Time has elapsed You have reached 0 of 0 point(s). (0) Earned Point(s): 0 of 0, (0) 0 Essay(s) Pending (Possible Point(s): 0) In 1921, Mahatma Gandhi took charge of the Indian National Congress, a group of thirteen men in the Indian government who fought discrimination and unfair taxation against farmers and urban laborers. Using the nonviolent tactic of civil disobedience, Gandhi and his followers resisted British control over Indian life, choosing not to follow unfair, discriminatory laws and policies. The British responded to this resistance by strengthening their military presence in India, often at the cost of human lives. Gandhi was eventually imprisoned in 1942 for his "radical" beliefs, but he refused to recognize violence as a means of fighting the British. He gained international attention for his hunger strikes, refusing to eat until the British changed their unjust policies. Which of the following quotes from the passage contains an opinion? In 1921, Mahatma Gandhi took charge of the Indian National Congress, a group of thirteen men in the Indian government who fought discrimination and unfair taxation against farmers and urban laborers. Using the nonviolent tactic of civil disobedience, Gandhi and his followers resisted British control over Indian life, choosing not to follow unfair, discriminatory laws and policies. The British responded to this resistance by strengthening their military presence in India, often at the cost of human lives. Gandhi was eventually imprisoned in 1942 for his "radical" beliefs, but he refused to recognize violence as a means of fighting the British. He gained international attention for his hunger strikes, refusing to eat until the British changed their unjust policies. Which of the following quotes from the passage supports the statement below? The British government were careless in how they tried to combat Gandhi's protests. 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25 26 27 28 29 30 Current Correct Incorrect This is a completely free website that is dedicated to helping with test prep for the ParaPro Assessment. We offer dozens of online practice questions that paraeducators can use to prepare for the certification exams. We are not affiliated with the Educational Testing Service (ETS). Our free practice tests focus on the critical topics and skills that educators must know in order to pass the ParaPro exam. Writing The 30 questions in this area cover your writing skills and knowledge, as well as your ability to apply writing skills and knowledge to instruction in the classroom. Writing skills and knowledge Word usage Spelling errors Punctuation errors Grammatical errors Parts of speech Parts of a sentence Application of writing skills and knowledge to classroom instruction Write for different purposes and audiences Identify and use appropriate reference materials Recognize and write in different modes and forms Use rewriting to organize ideas Draft and revise Edit written documents for grammar and clarity Check Out Mometrix's ParaPro Study Guide Get practice questions, video tutorials, and detailed study lessons Get Your Study Guide Registration Registering for the ParaPro Assessment requires an ETS account and a Prometric account. Once you have created your ETS account, you can select the option to register for the ParaPro Assessment (1755). Online registration is available 24/7, and appointments are scheduled year-round. Registering for the exam differs slightly depending on the test delivery method. In-person Testing To register for the exam at a Prometric testing center, you should register online at the Prometric website. When you register, you will need to pay the \$85 testing fee. If you need to reschedule your exam after registration, there is a \$42.50 rescheduling/cancellation fee. The test is also offered at participating school districts, regional offices of education, or other agencies. Check where the exam is provided if you want an alternative testing location. Once you've chosen your test center, register with the test center directly. The registration fee at an alternative testing center is usually \$55. Remote Testing Before registering for the at-home test, ensure your equipment and environment meet the minimum requirements, including a well-lit, quiet space without the presence of others and a workspace free of pens, paper, electronic devices, and resources that could provide an unfair advantage. The minimum technology requirements include the following: Screen resolution of at least 1024 x 768 Windows 8.1 or higher or macOS 10.13 or higher - tablets (iPad/Android) are not supported Working speakers and microphone Webcam with a resolution of 640x 480p Internet connection of 1.0 Mbps or greater Stable Wi-Fi connection Once you have determined that you meet the minimum requirements for home delivery, register and schedule your appointment through ProProctor. Prometric's online proctoring platform. The registration fee is \$85, and there is a rescheduling/cancellation fee of \$42.50. Test Day In-person Testing You should arrive at the testing center about 30 minutes before your scheduled appointment to complete the pre-test activities. You need to present one valid, government-issued ID with a signature. Your first and last name on the ID must match the first and last name you registered under. Calculators, writing utensils, beverages and snacks, electronic devices (cell phones, smart watches, etc.), and resource materials are prohibited. An online scratchpad tool is provided in the test program for note-taking. Once you have completed the pre-test procedures, you are directed to your testing station, and your test begins. Remote Testing You can sign into the test delivery platform 30 minutes before your appointment. You will need the confirmation number from the email you received after registering, and you must present one valid, government-issued ID with a signature to the proctor. Your first and last name on the ID must match the first and last name you registered under. Calculators, writing utensils, beverages and snacks, electronic devices (cell phones, smart watches, etc.), and resource materials are prohibited. An online scratchpad tool is provided in the test program for note-taking. In addition to the scratchpad tool, you are allowed a hand-held whiteboard (white), one whiteboard eraser, cloth, or tissue, and up to three dry-erase markers. Scratch paper is not permitted. Before beginning the exam, the proctor will direct you to move the webcam around your testing space, and your clothing will be inspected visually. You may be asked to pull your hair back, roll your sleeves up and turn your pockets inside out. Once the proctor is satisfied with your space and workstation and you have completed the pre-test activities, your exam begins. Your ParaPro Assessment score is calculated using a scaled scoring system. This system takes your raw score (each correct question equals one raw point) and converts it to a scaled score ranging from 420 to 480. Each state sets the minimum passing score, so the score you need will be different depending on your state. If you take the exam at home or a Prometric testing center, your unofficial score is sent to you via email within one hour of completing the exam. If you test at a participating school district, institution, or education service center, your unofficial score is displayed onscreen, and you can print it at the center. Your official score report is mailed to you and your designated score recipient two to three weeks after your test date, and your score is valid for ten years. Retaking the ParaPro Assessment or would like to increase your score, you can retake the exam after a 28-day waiting period. To schedule your retake after the 28-day waiting period, register and pay for the exam using the same procedures you used to register initially. There is no reduction in the registration fee for retake exams.
