To use the FM radio app, you need a wired headset. Tips & tricks The wires in your headset act as the antenna. For best Motorola Original Headset User Guide **Connecting Your Smartphone** To use the Motorola Lapdock with your smartphone, connect the webtop application automatically launch the webtop application when connected to a computer or HD display. **Browsing and Using Web Apps on a Large Screen** Choose "Browse" or "Web apps" from the application menu to access websites and online content on your large screen HDTV or monitor. You can also create and view your own HD videos using MotoCast and an HDMI cable sold separately. To manage calendar events on your phone, you can edit an alarm by touching and holding it until the "Edit" option appears, then selecting the desired changes. To delete an event, simply touch and hold it, followed by tapping the check box. Searching for specific items is also easy: just tap the search icon, and speak what you're looking for, such as "Motorola accessories." The phone will then display relevant results. When typing numbers or letters on a text entry field, each key press is announced out loud to help with accessibility. Customizing your phone's settings can also enhance usability. For instance, you can enable caller ID, which announces the name of the caller when they ring. Additionally, you can adjust volume and vibration levels to suit your preferences. If you're having trouble hearing or have specific hearing needs, there are various features available on your phone that can aid with accessibility. You may also want to consult a hearing health professional for personalized advice. The Android Market offers access to thousands of apps, many of which provide useful accessibility features and tools to streamline repetitive tasks. If you're frequently performing the same actions, consider using smart actions to automate these tasks. For added security, your phone has features like screen locks, PIN protection, and location settings that can be customized according to your needs. In case you forget your pattern or passcode, don't worry - simply contact the Motorola Customer Support Center for assistance. If you're experiencing issues with your device, refer to the troubleshooting guide provided in the user manual. Remember to always handle your phone's glass parts with care and avoid exposing it to direct sunlight or extreme temperatures. Be gentle with your phone as it might shatter if dropped from a significant height, causing harm to both you and the device itself. In such cases, keep a safe distance of at least 2.5 cm (1 inch) from your body. When using accessories not provided by Motorola, be aware that they may compromise your phone's performance. Familiarize yourself with your mobile device's features like speed dial, redial, and voice commands, as outlined on page 61. Note that your phone might transmit data, including location information, to improve Motorola products and services. To access the source code of software used in this device, contact Motorola directly. Remember not to dispose of your phone or electrical accessories with household waste. Page 63 provides more details. All product specifications, as mentioned in this guide, are subject to change without prior notice.
