

I'm not a bot

Were so much more than error monitoring software. Were also performance monitoring software. Our platform helps every developer diagnose, fix, and optimize the performance of their code. With Sentry, developers around the world save time, energy, and probably a few therapy sessions. Sentry supports more than 100 coding languages, which means it probably supports yours. We also integrate with a whole bunch of useful tools (and a few necessary evils), including but definitely not limited to GitHub, Slack, and Jira. Before you apply, make sure you are eligible for SENTRI. Its easy. Just follow these steps: Create a Trusted Traveler Program (TTP) System account. Regardless of your age, you must have your own TTP account. Log in to your TTP account and complete the application. A non-refundable fee is required with each completed application. After accepting your completed application and fee, CBP will review your application. If your application is conditionally approved, then your TTP account will instruct you to schedule an interview at a SENTRI Enrollment Center. Each applicant must schedule a separate interview. You will need to bring your valid passport(s) and one other form of identification, such as a drivers license or ID card to the interview. If you do not have a passport please bring any valid U.S. entry documents in your possession. If you are a lawful permanent resident, you must present your permanent resident card. Also, required are vehicle registration and evidence of United States automobile insurance by a company authorized to write automobile insurance in the United States. Reasonable Modifications for Applicants with a Disability After you have submitted your application and scheduled an interview at a SENTRI Enrollment Center, if you require assistance for the interview because of a disability, contact the SENTRI Enrollment Center where your interview is scheduled to request a reasonable modification or auxiliary aid or service to complete the interview. Requests for a modification, aid, or service should be made as soon as possible and prior to the date of an interview to allow sufficient time for making the appropriate arrangements at the interview location. Last Modified: Sep 19, 2025 150,000+ Growing Teams Use Sentry to Find Problems Fast Sentry automatically detects and notifies you of critical performance issues so you can trace every slow transaction to a poor-performing API call or DB query. Learn More Solve slow, fast Pinpoint the specific operations that may be causing issues by searching for traces matching criteria like a route, API endpoint, or user ID or get a quick overview of how your application is performing. Learn More Investigate known problems And yes, it really is monthly. Ok, maybe the occasional twice a month, but for sure not like one of those daily ones that you just tune out after a while.
